PROJECTS

Wireless Nework Attacks Prediction System:

The Objective of Wireless Network Attack prediction is to predict the Cybersecurity attacks by using a machine learning algorithm. It predicts the cybersecurity attacks as Black Hole, Flooding, Gray hole, Scheduling and Normal. Through data analysis and by using the multiple algorithm the attack type is predicted with higher accuracy.

Efficient Transport System:

The aim of the project we done is to develop a detailed analysis to predict the arrival and available of buses at a specified area.

CERTIFICATIONS

- Participation certificate in 'SCRUM MASTER' national level technical symposium (2022).
- Azure Fundamentals (AZ-900) completion certificate by Microsoft (04/2023).
- Power Platform fundamentals (PL-900) completion certificate by Microsoft (05/2023).
